MUSIC MAKERS

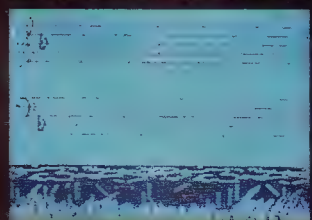

Introducing The Miracle Piano Teaching System...makes learning how to play the piano easy and fun!

Works with your Nintendo system...but it's definitely not a toy! The Miracle system takes you or your child through a series of lessons customized to match both skill level and musical taste. The Miracle system starts with the basics...reading notes, key location, technique, and rhythm. The Miracle system is designed to make learning easy and interesting. As you play, the TV screen shows you the music and

the keyboard. The system knows which key you are hitting, how well you are doing with your fingering, and even keeps track of the tempo. After each lesson segment it automatically takes you back through the parts where you had trouble and helps you with them. For kids, no teacher could be more patient or

more fun to learn from. The Miracle system turns such basic tasks as learning the keyboard into exciting games, like 'shooting gallery'...hit the right note and get a duck. And as the child's lessons progress, The Miracle system is full of surprise 'rewards' in sight and sound. The fact is, it provides the same kind of stimulus that keeps them glued to their Nintendo games. The Miracle keyboard rivals MIDI console quality, producing superior, digitized stereo sound...piano and over 100 other instruments. Full-size, velocity-sensitive keys. Built-in stereo speakers (or connect to remote speakers); includes foot pedal and stereo headphones (Nintendo game and TV monitor are not incl.). Keyboard can be used without Nintendo.

At last, a camcorder that's so compact and simple, anyone can use it!

517 Monthly on SearsCharge Plus†. A revolutionary new approach to the camcorder! With an innovative new shape and features, Fisher design engineers have come closer to making the camcorder 'see' like the human eye than any other camcorder before. Every moment, our eyes are constantly adjusting to light, colors and shapes to maintain a sharp, clear image. To mimic this, Fisher engineers have incorporated new 'FUZZY LOGIC' circuitry into their FVC-880 camcorder. Unlike any camcorder before, 'FUZZY LOGIC' adjusts to changing focus and lighting conditions smoothly and accurately in tiny increments like the human eye. The innovative ultra-lightweight shape reflects Fisher research. It's ergonomically designed for greater stability and comfortable two-hand use. Includes AC battery charger, shoulder belt, rechargeable battery, RF adapter, cables.

HOW-TO-MEASURE TABLECLOTHS

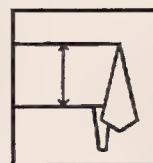

MEASURE TABLETOP. For rectangular and oval tables, measure length and width. For round, square and hexagonal table measure diameter only. **IMPORTANT:** Add length of leaf/leaves (1) if applicable.

ADD TWICE THE DROP LENGTH. The drop is the part of the tablecloth that hangs from the edge (2) of the table. This measurement must be added to the length AND width. Add an extra 16-20 in. for 8-10 in. formal drop, add 12-16 in. for 6-8 in. casual drop.

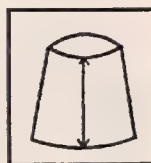

FOR DECORATOR TABLES, add twice the table height (3) to the diameter.
